No wells within $\frac{1}{2}$ mile of this location. There will be no camp built. There will be 2900 feet of new road. This will be a two man operation and no waste disposal will be necessary. If the test is plugged, operator will reseed the location to BLM specifications.

Tanks, if installed, will be in the area of the drill pad. Flow lines will follow existing roads to pipeline connections. Water will be hauled from Cisco Springs, 5 miles north of the location. No camps or air strips are required. Operator will restore the surface disturbance to as near as practical to original contours.
